Contest Theme: “The 28th Amendment to the United States Constitution: What Should Our Next Amendment Be?”

The United States Constitution has three main functions. It creates a national government consisting of three branches—executive, legislative, and judicial. It divides governmental powers between the federal government and the states. It also protects individual liberties from the government.

Since the Constitution was ratified in 1789, more than 12,000 amendments have been proposed and many remain pending as partially approved. Only 27 amendments have been successfully ratified and incorporated into the U.S. Constitution. For example: The First Amendment (1791) protects the freedom of speech, freedom of the press and the free exercise of religion. The First Amendment also prevents the government from favoring one religion over another. The 13th Amendment (1865) abolished slavery. The 19th Amendment (1920) guaranteed women the right to vote. Other amendments were proposed but have not been ratified, including banning flag burning, guaranteeing equal rights regardless of sex, electing the president by popular vote, curbing climate change and guaranteeing the right to privacy.

Students are asked: “What amendment would you propose for our Constitution? Why? How would you get your amendment ratified?”
